

## **St. John's Student Records & Portal System**

*Efficient. Secure. Accessible.*

The goal is to help St. John's move from manual to digital systems to save time and improve accuracy. It is a digital solution that makes education easier and more transparent.

### **What is being offered?**

- **Online Student Portal:** Students view grades, timetables, institutional news and track payments anytime, anywhere.
- **Secure Access:** Each student has a personal login ensuring privacy and data security.
- **Administrative Tools:** Easy-to-use interfaces for staff to upload results, manage records, and monitor payments.
- **Payment Tracking:** Keep clear records of tuition fees and payment statuses with automated reminders.
- **Ongoing Support:** We provide training and continuous maintenance to keep the system running smoothly.

### **Benefits to St. John's**

- Reduces long queues and waiting times at the Dean's office when viewing academic results.
- Helps students track their progress over the course of their education.
- Minimizes paperwork and errors in record-keeping.
- Empowers students with instant access to their academic info.
- Improves transparency and payment tracking for better financial management.

### **Next Steps**

We would love to discuss how this system can be tailored to St. John's specific needs and budget. We are ready to demonstrate a prototype at your convenience.
